VIDOTTO GROUP AND DYNAMIC CPM CONSULTING

Vidotto Group and Dynamic CPM consulting have partnered to offer a comprehensive support network for projects

With over 40 years of combined experience, we have complete understanding of project needs and potential pitfalls. Vidotto Group and Dynamic CPM consulting have supported a myriad of projects globally, offering clients effective systems and procedures to ensure that mitigate issues before they arise, the expertise required to run projects effectively and auditing services is isolate the root cause of issues currently facing a project, paired with the processes needed to get back on track.

Summary of services

Vidotto Group and Project CPM Consulting offer clients complete end to end support, offering project development, analysis, review, extension of time support and claim evaluation and negotiation services. Bother organisations work with the Resources, Infrastructure, Oil and Gas industries; both within Australia and internationally, throughout the project lifecycle, from development to shut down and everything in between on projects ranging from \$200,000 to over \$50 Billion.

With a wide range of support services Vidotto Group and Dynamic CPI consulting can offer tailored support services:

- Project Management and Project Controls management
- Forensics Schedule Analysis
- Construction Cost and Schedule Management
- Delay Analysis to construction claims
- Review and audit of all project documentation and procedures

At all times we offer our clients the very best in professionalism and care. We work to integrate our services into the client's culture ensuring that we all share the same goals and objectives; your success is our success. Our experience allows us to tailor out services to the needs of the client with mentoring and training, contracts and process management, schedule and cost to ensure that each project milestone is met as effectively as possible.

The strength of Vidotto Group and Dynamic CPM Consulting comes from our ability to offer transparency in all project status reports, highlighting real issues before they arise, giving clients the ability to mitigate damage where possible. We do this through monthly snapshots and reports which provide an in depth look at your project, identifying delays or potential delays.

Vidotto Group and Project CPM Consulting also offer in depth audit and review support, expert witness services, as well providing arbitration services where required, ensuring a quick resolution to any issue that may arise.

Key Personnel

Our experienced professionals become an invaluable part of your team, providing integration mentoring, monitoring and guidance to put you back in control

Lou Vidotto, managing director of Vidotto Group, is a senior Project Controls Manager with 35 years engineering experience encompassing roles such as Project Controls Engineer and Manager, Site Engineer and Estimator on major resource projects in Australia and internationally.

Experienced in all facets of Project Controls Management, estimating, budget preparation, cost control and reporting, planning and scheduling, contractor claims assessment, documentation control and project reporting, on all phases of major resource and projects from concept phase to execution and handover. Experience has included working with Owners teams and EPCM contractors.

A proven ability to successfully build teams through training and staff development, extensive experience implementing new processes and systems for major projects, and integrating project process across project groups.

Meschelle Campbell, director of Project CPM Consulting has over thirteen years' experience as a construction project scheduler for the project management of nuclear, oil and gas, rail, civil, construction, and dredging projects, ranging from \$1 million to \$29 billion.

Her experience includes program implementation, cost and budgeting, airport construction, casinos, high rises, dredging, hurricane relief, military installations, commercial, power, rail claims, oil and gas planning and claims, and industrial construction.

She has established overall project budgets, CPM baseline schedules, seminar speaking, subcontractor coordination, forensics and claims and change order resolution. She has also prepared and evaluated several detailed work plans, monthly narratives and time impact analyses, and has a unique depth of experience in construction delay claims and dispute resolution.

ACCV was established by Alison Vidotto in 2006 after the Vidotto family went on a holiday to Vietnam and met numerous people living in severe poverty.

ACCV is now an official NGO in both Australia and Vietnam; it does not receive financial support from any government or corporate sector and must be self-financing. Financial support comes from fundraising and direct donations. ACCV works with an increasing number of underprivileged young people, many of whom are blind. We strongly believe in helping them to help themselves.

“ACCV currently supports nearly 200 families through their three programmes”

ACCV currently has three major programmes:

1. *E.L.I.T.E – English language and IT education for blind students.*

Our main objective is to give these students the opportunity to further education and future job prospects. Employment and independence is our ultimate goal. ACCV current supports 51 blind students.

2. *A Brighter Tomorrow*

Breaking the poverty cycle through education and support. We are currently supporting a number of students through high school and university. ACCV currently has 21 children in this programme

3. *C.E.M.S – Christine Edith Medical Support*

A partnership with the Vietnam National Paediatric Hospital. ACCV provides financial aid to seriously ill children requiring surgery and medical care. ACCV currently supports 114 seriously ill children.

“Vidotto Group funds all administrative costs for ACCV, 100% of all donations go directly to the children of Vietnam”
